

What do people in the UK think of the new restrictions?

13 September 2020, London -

Our latest monthly barometer on British public opinion and voting intentions finds doubts over the effectiveness of the new 'rule of six', growing job insecurity, and widespread agreement that schools should remain open, even if it means other non-essential places would have to close.

Key findings from the research, which took place between 17 and 21 September, reveal:

- There has been an increase in the proportion of Britons who think that the pace at which the government is adjusting restrictions to everyday life a bit/much too slow, at 42%, up from 25% in August*. Now, 20% of people say they think it is a bit or much too fast, compared to 33% in August. 27% think the government have got it about right (-4)
- Looking to the future, almost one in three (31%, +5) of those working think that their job is not at all / not very secure in the period to the end of 2020, with two thirds (59%, -6) of those working think that their job is very/somewhat secure
- Thinking about the future for the country, almost two in three Britons (64%) say they think that we should accept that there will be restrictions on all our lives until there is everyday testing and/or a vaccine for COVID-19. Just over one in four (26%) say instead that they think the most vulnerable should be asked to self-isolate while the rest of the country goes back to work and normal life
- As the government moves to implement fresh restrictions on the public to limit the spread of COVID-19, the public view on local lockdowns is dimming, although they are more popular than the new "rule of six". 75% (-7 vs last month) of people approve or strongly approve of the government using local lockdowns to tackle outbreaks of coronavirus, compared to 64% who say the same of the 'rule of six' (not asked in August)
- 67% of people strongly/agree that it is important that schools remain open and 60% of people strongly / agree that the government should prioritize schools remaining open even if this means restaurants, pubs or other non-essential shops would have to close
- 35% of people (-6) say they 'definitely' plan to get vaccinated if a coronavirus is developed, compared to 29% (+3) who say 'probably'
- When asked about the UK government negotiating the future relationship with the EU, 57% of people think they are being handled fairly/very poorly (+12), compared to 24% who said very/fairly well (-7)

Overall, expectations for the economy and the personal impacts are austere, with over a third (35%, +3) reporting that coronavirus has reduced their personal income. Of that group, 25% expect this reduction to be permanent (+6).

Perceptions of actions and intervention to tackle COVID-19

Whilst three quarters of people (76%, nc) are very/fairly concerned that there will be a second wave of coronavirus infections in the UK, the public view of just how effective these tools are is dropping:

- Fewer people in September think that local lockdowns are fairly/very effective (56%), compared to August (69%). 38% of people say they think the “rule of six” will be fairly/very effective in tackling the spread of coronavirus
- 50% of people think people in their area understand the new rules of six** a lot/fair amount, compared to 42% who think they understand them not very much/not at all. However, almost two in three people (64%) approve/strongly approve of these new rules, compared to 25% who disapprove/strongly disapprove
- Public perception of how the UK government is handling the crisis remains poor, with six in ten (60%, +4) stating that they think the government is handling the coronavirus outbreak very/fairly poorly. Fewer than four in ten (32%, -7) think that the government are handling it very/fairly well.

Voting intentions

- Conservative 40% (-2 vs August 2020)
- Labour 38% (+3)
- Liberal Democrats 9% (+1)
- SNP 4% (-2)
- Green 4% (+1)
- The Brexit Party 3% (nc)
- UKIP 2% (+1)
- Plaid Cymru 1% (nc)
- Other 1% (nc)

-Ends-

Methodological information

[The survey data and further details on the methodological approach can be found here.](#) A total of 1,125 interviews were conducted online among adults living in Great Britain between 17 and 21 September 2020. All interviews were conducted as online self-completion. The Kantar online access panel was the main sample source. The data was weighted to match population totals for age, gender, 2019 General Election voting patterns, 2016 EU referendum voting patterns, education, region, and likelihood to vote in the next General Election. Any use of this research must cite Kantar as the source.

Notes

*A representative sample of 1,161 interviews were conducted online among adults living in Great Britain between 6 and 10 August 2020. All interviews were conducted as online self-completion with Kantar online access panel as the main sample source.

**Question was preceded with description of the local “rule of six” details for England, Scotland and Wales for respondents in those nations. The full question wording is provided at the end of the data tables.

Polling Methodological Note – September 2020

A representative sample of 1,125 adults in Great Britain were interviewed between the 17th and 21st September 2020. All interviews were conducted as online self-completion. The Kantar online access panel was the main sample source.

The data was weighted to match population totals for age, gender, 2019 General Election voting patterns, 2016 EU referendum voting patterns, education, region, and likelihood to vote in the next General Election. Further details on the weighting are given on page two.

Voting intentions

The voting intention figures provided aim to show the current political opinion of the nation rather than to accurately predict the outcome of the next General Election.

As well as weighting the data, a Likelihood to Vote (LTV) Model has been used to estimate the voting probability of each respondent. These probabilities vary by stated likelihood of voting, age and whether reported voting in the 2017 general election. The probabilities themselves are based on those of respondents that participated in our polls immediately before and after the 2017 General Election.

Uncertainty

All polls are subject to a wide range of potential sources of error. On the basis of the historical record of the polls at recent general elections, there is a 9 in 10 chance that the true value of a party's support lies within 4 points of the estimates provided by this poll, and a 2 in 3 chance that it lies within 2 points.

Sampling variance

We have estimated the sampling variation in our voting intention estimates using the methodology proposed by Kuha and Sturgis (2017¹). Bootstrap resampling was used to draw fifty sets of respondents from the achieved sample (in a way which matched the quota sampling design), each of these new samples was weighted and we have then used the distribution of estimates (from the resamples) to calculate margins of error (the range containing all but the two most extreme resample results).

- Conservative Party = 36.7% to 44.4%
- Labour Party = 34.7% to 41.6%
- Conservative lead over Labour = -4.6%pts to 8.6%pts

¹ See: https://www.europeansurveyresearch.org/news/non-prob/INPS_06_Kuha.pdf and <https://rss.onlinelibrary.wiley.com/doi/full/10.1111/rssa.12329>

Weighting

Weights have been applied to the sample to ensure that it is representative of the general public in Great Britain aged 18+. The sources for the population totals are provided in each table.

Gender* and age

Source: ONS Mid Year-2018 Population Estimates:

	Unweighted count	Weighted count
Male 18-24	72	63
Male 25-34	97	97
Male 35-44	87	89
Male 45-54	98	97
Male 55-69	140	119
Male 70+	56	84
Female 18-24	56	60
Female 25-34	96	96
Female 35-44	96	90
Female 45-54	105	100
Female 55-69	167	125
Female 70+	55	105

*Those reporting an "other" gender are randomly allocated to male or female.

Region

Source: ONS Mid Year-2018 Population Estimates:

	Unweighted count	Weighted count
North East England	46	47
North West England	138	127
Yorkshire & Humber	113	95
East Midlands	85	84
West Midlands	120	102
East of England	96	107
London	137	152
South East England	161	158
South West England	98	99
Wales	34	55
Scotland	97	97

Education by age

Source: Annual Population Survey (Jul 2018-Jun 2019)

	Unweighted count	Weighted count
Aged 18-24 with a degree	43	23
Aged 25-44 with a degree	170	157
Aged 45-69 with a degree	139	119
Other	773	827

Vote in the 2016 EU referendum*

Source: EU referendum & ONS Mid Year-2018 Population Estimates

	Unweighted percentage	Weighted percentage
Remain	40%	31%
Leave	43%	33%
Did not vote	17%	36%

*An imputed response is given for those that prefer not to say who they voted for in the referendum.

Vote in the 2019 General Election*

Source: General Election & ONS Mid Year-2018 Population Estimates

	Unweighted percentage	Weighted percentage
England - Labour	24%	18%
England - Conservative	35%	25%
England - Lib Dem	7%	7%
England - Other	6%	3%
England - No vote	15%	34%
Scotland - Labour	2%	1%
Scotland - Conservative	2%	1%
Scotland - SNP	3%	2%
Scotland - Other	1%	1%
Scotland - No vote	1%	3%
Wales - Labour	1%	1%
Wales - Conservative	1%	1%
Wales - PC	<0.5%	<0.5%
Wales - Other	<0.5%	<0.5%
Wales - No vote	<0.5%	2%

*An imputed response is given for those that prefer not to say who they voted for in the 2019 General Election.

Likelihood to Vote in General Election

We have estimated the likelihood that each respondent will vote in the next General Election. This value is based on respondents' stated intention to vote, their age and whether they voted in the last general election. The expected population turnout has been included as a population total in the weighting matrix. This turnout has been estimated based on the relationship between sample and population turnout rates in the 2017 general election.

	Unweighted percentage	Weighted percentage
Estimated Voting Age Population turnout if General Election were to be held tomorrow	82%	59%

The model was developed using data from respondents that participated in Kantar polls immediately prior to the 2017 general election and immediately after the election.

Further details

Please contact Luke Taylor luke.taylor@kantar.com for further details on the methodology used in this polling.

RuleOf6A: All adults GB 18+

Single coded

On Monday September 14th, new rules have come into place limiting the number of people that can meet at any one time.

[DIFFERENT TEXT FILLS DEPENDING ON THE COUNTRY PEOPLE LIVE IN]

IF England

In England, gatherings of more than 6 people (of any age) are illegal both indoors and outdoors. Although there are some exceptions, e.g. for schools, work, places of worship and some organised sports. The rules in Scotland and Wales are slightly different.

IF Wales

In Wales, indoor gatherings are limited to a maximum of six people. All people must be from the same extended household group. Although this rule does not include children aged under 12. There are some exceptions, e.g. for schools, work, places of worship and some organised sports. The rules in England and Scotland are slightly different.

IF Scotland

In Scotland, a maximum of six people from two households are allowed to meet together. Although this rule does not include children aged under 12. There are some exceptions, e.g. for schools, work, places of worship and some organised sports. The rules in England and Wales are slightly different.

To what extent do you think that the public in your area understands these new rules?

- 1 A lot
- 2 A fair amount
- 3 Not very much
- 4 Not at all
- 5 Don't know
